

BATTERY BLADE

Battery Cartridge

A battery-based energy storage for mission critical applications that allows for safe, fast and clean handling.

- Contains eight batteries
- Each 12V/7Ah, VRLA (valve-regulated lead-acid battery)
- Leak-proof, maintenance-free
- Volt-Ampere-Hour capacity: 672 VAh
- Plug&Play for fast addition or replacement of Battery Blades - no tools needed
- Modular approach for low weight and easy handling
- Dimensions
 - W: 104 mm,
 - H: 172 mm (4U),
 - D: 622 mm,
 - weight 23 kg

Approvals

CE (according to EN/IEC 62040)
